

**Credits:** By default the credit in your account is \$500, after losing all credit a user can reset and again get the same amount.

**Begin by placing your bet:** Select the amount of money you want to wager on each spin. This can typically be adjusted using the "bet" button. So, by default bet rate is \$10, however you can increase the bet by clicking on "+" button and then again reduce the amount by clicking on "-"

**Spin the reels:** Once you have placed your bet, press the "spin" button to start the game. The reels will spin and come to a stop after a few seconds.

**Check the winning combinations:** After the reels have stopped, the game will automatically check for any winning combinations. These are typically displayed on the game screen and can include symbols matching across the paylines.

**Collect your winnings:** If you have hit a winning combination, your winnings will be automatically credited to your winner paid. You can then choose to continue playing or cash out your winnings.

**Repeat the process:** If you want to keep playing, simply repeat the process by placing your next bet and spinning the reels again.
